GLADIOLUS

No other summer - flowering bulb is as popular as the GLADIOLUS. Lovely for garden decoration and superior as a cut-flower during the summer and in the early Autumn. When cut with the first flower open they will last for 10 days in the house. Plant bulbs 4 inches deep and 4 to 6 inches apart. They will thrive in most any good garden soil but best results are obtained if soil is well prepared with pulverized manures.

**No. 1 Bulbs that Give Giant Blooms—Pinks,
Yellow, Red & Scarlet, White, Lilac, and
Purple Shades.**
